HireLens

VERIFIED SCAN

Objective candidate match analysis calibrated against explicit job requirements.

AUDIT DATE: 25 OCT 2026 • FORMAT: A4 EXECUTIVE REPORT • CONFIDENTIAL

Staff Software Engineer

Target Job Requirement Evaluation & ATS Alignment Score

1 Matched • **1 Partial** • **1 Not Shown**

88 / 100

HIGH ALIGNMENT

EXECUTIVE RECRUITER ASSESSMENT

Exceptional alignment with distributed systems and technical leadership requirements.

KEY CANDIDATE STRENGTHS

- ✓ Extensive microservices architecture experience
- ✓ Demonstrated mentorship of 12+ engineers
- ✓ Deep Go and TypeScript production track record

REQUIREMENTS BREAKDOWN & GAP AUDIT

MATCHED IMPORTANCE: HIGH

Distributed Systems (Kafka, gRPC)

> *Evidence: "Designed event pipeline handling 250k req/sec with Kafka and gRPC."*

Action: Highlight fault-tolerance and failover numbers.

PARTIAL IMPORTANCE: MEDIUM

Multi-Region Cloud Infrastructure

> *Evidence: "Deployed active-passive AWS clusters across 2 regions."*

Action: Clarify multi-region data replication latency and consensus setup.

NOT SHOWN IMPORTANCE: LOW

Rust / High-Performance Computing

Action: If you have systems programming experience, detail it under skills.

TARGETED RESUME IMPROVEMENTS

Emphasize system scale metrics

Staff roles require explicit demonstration of organizational and system scale.

RECOMMENDED BULLET REWRITE (ADAPT TO YOUR EXPERIENCE):
"Architected distributed event bus reducing cross-datacenter latency by 35% across 4M daily active users."

AUDIT METHODOLOGY & CAVEATS

- This score is an estimate based on textual comparison against stated job posting requirements.
- The absence of a skill in the resume text does not indicate candidate incompetence.

This report was generated by HireLens using AI. The match score is an objective estimate calibrated against stated job requirements. It is not a hiring guarantee or employment prediction. Missing evidence signifies absence in the submitted resume text, not necessarily absence of capability. Suggested bullets are templates to adapt to your actual career experience.
